

## DESAFÍO

### Desarrollador De PHP

Captura de pantalla del área administrativa con el listado de usuarios, sus roles y la funcionalidad para editarlos.

The screenshot shows a web browser at localhost:8000/en/admin/users. The page has a dark blue navigation bar with links: Symphony Demo, Inventory, Accounting, Post list, List Users, Back to blog, Search, and user profile. The main content area is titled 'List Users' and features a table with columns 'User Name', 'User Email', and 'Actions'. The table lists four users: Jane Doe (ROLE\_ADMIN), Tom Doe (ROLE\_ADMIN), John Doe (ROLE\_USER), and Pepito Perez (ROLE\_USER). Each user has an 'Edit Role' button. To the right of the table is a green '+ Add User' button and a text box explaining the demo application. At the bottom right is a 'Show code' button. A status bar at the very bottom shows performance metrics like 639 ms, 8.0 MiB, and 22 in 16.49 ms.

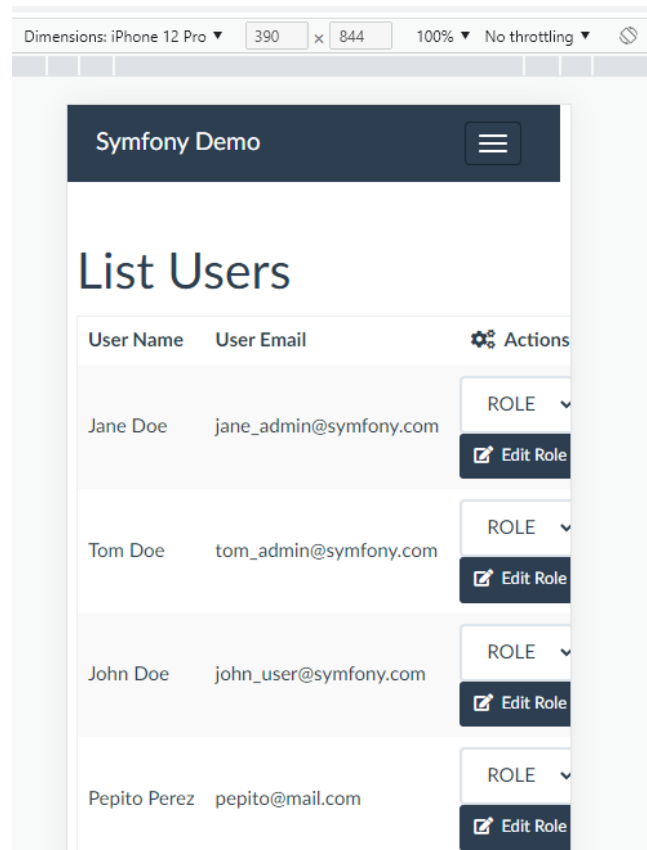

User Name	User Email	Actions
Jane Doe	jane_admin@symfony.com	ROLE_ADMIN Edit Role
Tom Doe	tom_admin@symfony.com	ROLE_ADMIN Edit Role
John Doe	john_user@symfony.com	ROLE_USER Edit Role
Pepito Perez	pepito@mail.com	ROLE_USER Edit Role

Área administrativa en iPad Mini.

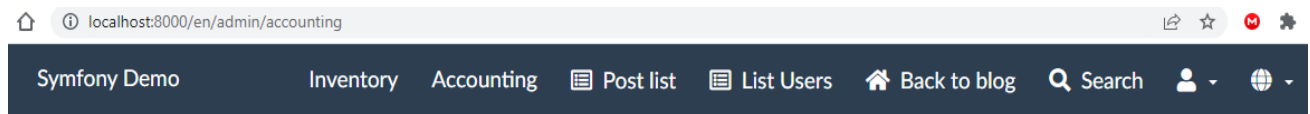

This screenshot shows the same 'List Users' page as above, but rendered for an iPad Mini. The browser dimensions are 768x1024. The layout is responsive, with the navigation bar and table content adjusted to fit the tablet screen. The 'List Users' title is larger, and the table columns are wider. The '+ Add User' button and the explanatory text box are still present on the right side.

User Name	User Email	Actions
Jane Doe	jane_admin@symfony.com	ROLE_ADMIN Edit Role
Tom Doe	tom_admin@symfony.com	ROLE_ADMIN Edit Role
